Project No. 99-200

Mr. Peter Chen
Hazardous Substances Engineer
Department of Toxic Substances Control
1011 North Grandview Avenue
Glendale, California 91201

Transmittal
Ground Water RFI Report
Former International Light Metals Facility
Lockheed Martin Corporation
Torrance, California
(Docket HWCA: P1-98/99-002)

Dear Mr. Chen:

Pursuant to the requirements of the Corrective Action Consent Agreement (Docket HWCA: P1-98/99-002), enclosed is the final Ground Water RCRA Facility Investigation (RFI) Report for the Lockheed Martin Corporation (LMC) former International Light Metals facility in Torrance, California. We will prepare and submit the Ground Water Health Risk Assessment (HRA) Report once we receive your comments on the HRA Workplan submitted on August 9, 1999.

Please contact us with your comments on the Ground Water RFI or if you have any questions.

Sincerely,

Ronald V. Giraudi, R.E.A.
Project Director
